**IMPORTANT!** In order to use this printable ring sizer, please read and follow these steps:

1. Prior to printing, ensure that Page Scaling is set to NONE on your print dialog box.
2. After printing, measure the rectangle on the left. It must be exactly 3 cm x 3 cm.
3. If the rectangle is NOT 3x3, you will need to print this document again making sure that PAGE SCALE is NONE.
4. Once this document is printed, you can choose between two methods of measurement, being Method 1 the most precise.

#### METHOD 1:

1. Select a ring that properly fits the intended finger. Engagement and wedding rings are traditionally worn on the ring finger (on the left hand in most countries).
2. Place the ring over the circles below. Match the inside edge of the ring to the circle nearest in size. This measurement refers to the inside DIAMETER of the ring.

### WHEN SHOULD YOU MEASURE YOUR RING SIZE

Be sure to measure your finger towards the end of the day when fingers are thickest. Measuring a cold finger may result in an inaccurate measurement.

### TIPS FOR BUYING THE RING AS A SURPRISE

- In order to keep it a secret, consider the shipping address.
- Ask friends or family. It shouldn't be too hard for them to find out his or her ring size in a subtle or discreet manner.
- Find a ring that he or she owns and measure the ring, or simply take it to your jeweler to have it measured.
